

It gives us great pleasure to announce that we will be using Dragonfly along with VeriSign as our primary distribution venue for viewing Star Trek: Of Gods and Men.

As some may know, Dragonfly and VeriSign have been successfully handling Star Trek: New Voyages episode entitled "World Enough and Time" (http://www.startreknewvoyages.com/episode_weat.html) during the past two months.

Dragonfly (<http://dragonfly.com>) is a high end company specifically geared toward multi-media content delivery and partnered with VeriSign (<http://www.verisign.com>) to enable high end bandwidth for video.
