

Act III Effects Progressing Nicely

Monday, 29 October 2007 16:04

Part I is completed, Part II is in the final stages of post-production, and the CGI shots for Act III are coming along wonderfully. There are over 8.5 minutes of CGI shots in Act III alone! And this does not include the optical FX, which are considerable. The talented team of graphic artists from Trinity FX Productions, led by Visual Effects Producers Peter Christian and Chris Dawson, are to be commended. The OGaM effects team consists of Christian, Dawon, William Thomas, Henry Gibbens, Roland Baron, Wil Jaspers, Jennifer Jerard, Mark Lacriox, Sarah Char and Scott Nakada. We are also proud to welcome Michael Struck and NeoFX, who are joining our effects team for Parts II and III.
